Active Department of Defense Secret Clearance – SAP Eligible

*Information System Security Officer (ISSO) with expertise in DoD compliance (RMF/JSIG/STIGs), cloud security (AWS, Azure), and cyber defense operations. Former U.S. Marine Sergeant with proven leadership in mission-critical environments.*

*Skilled in automation, risk management, federal and commercial compliance, and security architecture, supported by a strong academic foundation in computer science and cybersecurity.*

## Professional Experience

### Lockheed Martin – Information System Security Officer (ISSO) II | 2025–Present | Fort Worth, TX

- Orchestrating RMF/JSIG accreditation and end-to-end continuous monitoring for Special Access Programs (SAP)
- Executing STIG hardening across Windows, Linux, and network platforms, ensuring full DoD compliance
- Automated audit workflows with Splunk, Qmulus, and Nessus, slashing manual review by 40%
- Partnering with ISSM leadership to maintain ATO readiness and rapidly remediate vulnerabilities

### Amazon Web Services – Information Security Specialist (Trust & Safety) | 2023–2025 | Remote

- Protected 25+ AWS service lines, proactively mitigating 3,000+ threats through advanced log analysis
- Developed automation scripts in Python, Bash, and Java, streamlining incident handling and boosting team efficiency
- Oversaw 10,000+ global abuse cases, cutting response times by 23% and raising customer trust scores

### Voxai Solutions – Cloud Network Operations Analyst | 2023 | Coppell, TX

- Engineered ServiceNow integrations with third-party monitoring & incident response platforms
- Delivered 24/7 on-call support, safeguarding uptime and reliability of enterprise networks
- Authored network baselines, SOPs, and training playbooks, standardizing team operations and reducing escalations

### United States Marine Corps – Sergeant / Section Lead (MOS 1161) | 2018–2022 | NC & Okinawa

- Directed technical teams in six global military operations, enforcing strict cybersecurity and mission protocols
- Achieved top 1% graduate status at the USMC Non-Commissioned Officer Course for ethical leadership
- Mentored and developed junior Marines, driving mission readiness and system efficiency improvements

## Education

### Doctorate of Engineering in Cybersecurity Analytics – George Washington University, (2027 Expected Graduation)

### MBA, IT Management – Western Governors University, 2025

### B.S., Cybersecurity & Information Assurance – Western Governors University, 2023

### Computer Science and Software Engineering Coursework (2 years) – Texas Christian University, 2022–2023

## Certifications

ISSEP, CISSP, CCSP – ISC<sup>2</sup>

CASP+, Pentest+, CySA+ – CompTIA

CompTIA Core (A+, Net+, Sec+, Project+)

Linux Essentials (LPI)

Genesys Cloud CX Professional (Genesys)

ITILv4 Foundation – Axelos

## Skills and Tools

**Governance & Compliance:** NIST Standards, ISO Standards, CSA Standards DISA STIGs, FedRAMP, FISMA

**Security Platforms:** Splunk, Qmulus, Tenable Nessus, Wireshark, Logarythim

**Cloud & Virtualization:** AWS Security, Azure, Genesys Cloud CX, VMware/Hyper-V

**Scripting & Automation:** Python, Bash, PowerShell, Java, Ansible

**Systems & Networking:** Linux/Windows Administration, TCP/IP, ServiceNow Integration

**Professional Strengths:** Leadership, Risk Management, Incident Response, Compliance Auditing
